

BULLYING

SECTION 1 – Policy Statement

The District is committed to maintaining a constructive, safe, and bullying-free school climate that is conducive to all students' educational opportunities and which fosters an environment in which all students are treated with respect and dignity. Bullying can inhibit a student's educational opportunities and may also have long-term negative effects on a student. Bullying of students shall not be tolerated and is strictly prohibited. Bullying of students from other schools who are at a District activity, parents, school employees, guests, visitors, volunteers and vendors of the District shall also not be tolerated and is strictly prohibited.

This policy shall not be interpreted or applied to prohibit civil exchange of opinions or debate protected under the state or federal constitutions if the opinion expressed does not otherwise materially or substantially disrupt the education process or intrude upon the rights of others. However, conduct which substantially interferes with the work of the school, causes material and substantial interference with school work and discipline, and might reasonably have led school authorities to forecast substantial disruption of or material interference with school activities is not constitutionally protected speech and is therefore prohibited under this policy.

All students, parents, employees, guests, visitors, volunteers and vendors shall conduct themselves in a civil and responsible manner and in a manner consistent with school policies related to student, parent, employee and visitor conduct. This policy prohibiting bullying shall apply to all students, parents, employees, guests, visitors, volunteers and vendors while on school property, while attending or participating in school activities, on school-owned property or on non-school property, while in any school-owned or leased vehicle, while at a school bus stop, or when in a private vehicle located on school property during school or during school activities..

The District shall investigate all reported instances involving bullying. Unless a different person is designated by the Superintendent/CEO to conduct the investigation, the Principal is responsible for investigating the alleged bullying. Allegations of bullying may also be reported by the administration to other authorities, including but not limited to law enforcement.

Students who violate this policy shall be subject to appropriate disciplinary action, up to and including expulsion. Employees who violate this policy shall be subject to appropriate disciplinary action, up to and including termination of employment. Parents, guests, visitors, volunteers, and vendors who violate this policy may be prohibited from being on school property.

Pursuant to state law:

- A. any school district employee, school volunteer, student, or parent who promptly reports in good faith an act of bullying to the appropriate school district official as designated in the school district's policy, and who makes the report in compliance with the provisions of the school district's policy, is immune from any cause of action for damages arising from failure to remedy the reported incident, and

- B. no cause of action is created against the school district, school district employee, school volunteer, student, or parent unless there has been substantial noncompliance with the school district's policy which results in injury to a person.

The District will maintain confidentiality to the maximum extent possible under the circumstances. However, a person reporting bullying conduct must understand that should the administrator who is investigating the report determine there is reasonable cause to suspect that bullying did occur which could result in administrative discipline or a referral to the School Board, the person alleged to have abused the other person may have the right to know the identity of the person(s) making the report in order that he/ she may have an opportunity to defend himself/herself.

The District strictly prohibits retaliation against any person because he or she has made a report, testified, assisted, or participated in the investigation of a report of alleged bullying. Retaliation includes, but is not limited to, any form of verbal or physical reprisal or adverse pressure. The person(s) alleged to have bullied another person shall not directly or indirectly (such as through another person) harass, pressure, or retaliate against any other person because of the complaint being reported. A violation of this provision may lead to separate disciplinary action based on the retaliation. Any person who believes he or she is being subjected to retaliation because of his or her involvement with a bullying report should immediately contact a school administrator.
